

CAMPBILL HOLLYWOOD
CARE SUPPORT WORKER

INFORMATION PACK

WELCOME

Our community is a group of dedicated people committed to the Camphill ethos of building community and lives together.

Camphill was founded in Aberdeen, Scotland in 1940 by Dr Karl König. Camphill communities recognise the value and potential of each individual human spirit. Today there are over 100 Camphill Communities worldwide, all inspired by the work of Dr König and the ideas of Anthroposophy and the teachings of Rudolf Steiner.

In Camphill Holywood we have three guiding principles, linked to the three Camphill pillars which are;

- meaningful self-development,
- enriching social community and
- sustainable economic fellowship.

Camphill Holywood promotes the practice of high quality care and support for individuals, education, work and living/housing opportunities for all community members. Community members include adults with learning disabilities and co-workers (volunteer and employed), trustees and friends.

Meaningful self-development: Individual growth & learning. the space and opportunity for each individual to develop their talents and learn new ones. For staff/co-workers this means examining the self, your practice, your routines and your perceptions and seeking to work to the best of your ability for the people we support in a meaningful way. For adults with learning disabilities this can mean engaging in activities that you would like, learning new skills and making choices in your life.

Enriching social community: This concerns togetherness and the social and cultural sides of life - how we eat together, communicate and celebrate together. Camphill communities seek to provide a safe environment of people within which those with learning disabilities can thrive. Showing respect and understanding for each other, experiencing joy and fun together in our community and in the local community of Holywood and Northern Ireland.

Sustainable economic fellowship: We want to use the resources of the community, the land and our environment in a way which is not wasteful and which helps to sustain us, the planet and others for future generations.

THE COMMUNITY

A quick guide to Camphill Community Hollywood

We provide residential care for adults with learning disabilities, autism and other disabilities. Co-workers live and work alongside adults in the houses, helping them to have fun, fulfilling lives and to achieve their potential. There are no cooks and cleaners, we all engage in the tasks that need to be done together through life-sharing and a family-style atmosphere.

RESIDENTIAL CARE

WORKSHOPS

We have a vegetarian, organic cafe, bakery and shop. Some of the adults who live in our houses work here as well as other adults with learning disabilities. We promote good food, healthy choices, seek to reduce our carbon footprint and benefit the environment. We provide a place to engage in meaningful work for the benefit of the community, contributing to a sense of responsibility and value.

COMMUNITY

In Camphill Hollywood a rich social and cultural life is important, it helps individuals socialise, interact and feel part of a wider network of people. We celebrate many festivals where community members can participate and foster a community of open-minded people, fun and acceptance.

WORKING WITH US

Guiding Vision

“If a person works for another person, they must find in the other the purpose for his own labours: and if someone has to work for a whole community, they have to sense and to experience the value, being and the meaning of it. This is only possible if the community is something other than a more or less defined sum of single people.

Such a community must be permeated by a true spirit in which every one of its members participates. In such a community, each person should say: ‘This community is right and I want it to be so.’

The community must have a spiritual mission, and every individual should have the urge to help so that the mission may be fulfilled.”

From: Anthroposophy and the Social Question by Rudolf Steiner
